About Me

I am a full stack developer with a passion for learning and problem solving. I have a strong background in web development and mobile development through React, Express and React Native. I am a fast learner that enjoys exploring new technologies and frameworks. I am currently looking for a full time position in the field of web development or React Native mobile development. I would love to be part of a team to provide value as well as improve myself as a developer.

Skills

Languages/Runtimes: Javascript, Nodejs, Python

Frameworks/Libraries: React, React Native, Express, Flask, FastAPI

Tools: Redux, Git, HTML, Sass/SCSS/CSS, Socket.IO, MongoDB, SQL
